Summery	Highly motivated and results-oriented software engineer with a strong background in front-end development (React UI) and back-end development (NodeJS). Seeking a challenging full-stack position at a company that values innovation and creativity.

Experience	

2023-Present - Leaders App Technologies Guide for Programming Languages and Computer Professions

- Conducted training sessions in JavaScript, React, and NodeJS.
- Equipped students with essential tools to execute projects of varying complexity using modern technologies.
- Expanded knowledge through independent teaching, focusing on complex technologies and additional programming languages.
- Delivered content professionally to students enrolled in the "Mamram" program.

2021-2023 – Neptune software construction
- Bug Detection and Reporting: Proficient in identifying and documenting bugs or issues with a high level of detail to catch potential issues early in the development cycle. This leads to faster resolution and improved product quality.
- Collaborative Team Player: Strong collaborative skills demonstrated through effective communication with cross-functional teams, including developers, designers, and product managers.
- Continuous Improvement Initiatives: Actively seek out new tools and methodologies to enhance accuracy and efficiency in work processes.
- Positive Impact on Product Quality: Proven ability to enhance product quality through thorough end-to-end site testing, resulting in the prevention of bugs and improved loading speed for high-quality sites, thus boosting search engine ranking (e.g., Google).

2018-2021 - IEC Tel-Aviv Customer Service Agent and Supervisor
- Effectively resolved customer queries across multiple platforms.
- Addressed a wide range of incoming complaints with professionalism.
- Promoted to a position of professional support after one year as a Customer Service Agent.
- Assumed responsibility for overseeing agent conduct during shifts.
